# Apple Cinema Display

Standards Subpart	Remarks and explanations
§ 1194.21 Software applications and operating systems.	<b>Not Applicable</b> : The Apple Cinema displays are adjusted via the display control panel in OSX.
§ 1194.22 Web-based intranet and internet information and applications.	<b>Not Applicable</b> : The Apple Cinema displays are not a Web- based application.
§ 1194.23 Telecommunications products.	Please refer to the attached VPAT: Standard 1194.23(k) and its subparts apply to the Apple Cinema displays.
§ 1194.24 Video and multimedia products.	<b>Not Applicable</b> : The Apple Cinema displays do not contain television tuner components. Any video or multimedia displayed is controlled via the attached computer.
§ 1194.25 Self contained, closed products.	<b>Not Applicable</b> : The Apple Cinema displays are not self-contained, closed products.
§ 1194.26 Desktop and portable computers.	Please refer to the attached VPAT
§ 1194.31 Functional performance criteria.	Please refer to the attached VPAT
§ 1194.41 Information, documentation, and support.	Please refer to the attached VPAT

#### **Subpart B -- Technical Standards**

#### § 1194.23 Telecommunications products.

Criteria	Supporting Features	Remarks and explanations
(a) Telecommunications products or systems which provide a function allowing voice communication and which do not themselves provide a TTY functionality shall provide a standard non-acoustic connection point for TTYs.  Microphones shall be capable of being turned on and off to allow the user to intermix speech with TTY use.	Not Applicable	
(b) Telecommunications products which include voice communication functionality shall support all commonly used crossmanufacturer nonproprietary standard TTY signal protocols.	Not Applicable	

	I I	
(c) Voice mail, auto-	Not Applicable	
attendant, and interactive		
voice response		
telecommunications		
systems shall be usable by		
TTY users with their TTYs.		
(d) Voice mail, messaging,	Not Applicable	
auto-attendant, and		
interactive voice response		
telecommunications		
systems that require a		
response from a user		
within a time interval,		
shall give an alert when		
the time interval is about		
to run out, and shall		
provide sufficient time for		
the user to indicate more		
time is required.		
(e) Where provided, caller	Not Applicable	
identification and similar		
telecommunications		
functions shall also be		
available for users of TTYs,		
and for users who cannot		
see displays.		
(f) For transmitted voice	Not Applicable	
signals,	Постърнован	
telecommunications		
products shall provide a		
gain adjustable up to a		
minimum of 20 dB. For		
incremental volume		
control, at least one		
intermediate step of 12 dB		
of gain shall be provided.		
(g) If the	Not Applicable	
telecommunications		
product allows a user to		
adjust the receive volume,		
a function shall be		
provided to automatically		
reset the volume to the		
default level after every		
use.		
(h) Where a	Not Applicable	
telecommunications		
product delivers output by		
an audio transducer which		
is normally held up to the		
ear, a means for effective		
magnetic wireless coupling		
to hearing technologies		
to ricuring technologies	1	

shall be provided.		
(i) Interference to hearing technologies (including hearing aids, cochlear implants, and assistive listening devices) shall be	Not Applicable	
reduced to the lowest possible level that allows a user of hearing technologies to utilize the telecommunications product.		
(j) Products that transmit or conduct information or communication, shall pass through crossmanufacturer, non-proprietary, industry-standard codes, translation protocols, formats or other information necessary to provide the information or communication in a usable format. Technologies which use encoding, signal compression, format transformation, or similar techniques shall not remove information needed for access or shall restore it upon delivery.  (k) Products which have	Not Applicable	
mechanically operated controls or keys, shall comply with the following:		
(1) Controls and keys shall be tactilely discernible without activating the controls or keys.	Supported	The Cinema displays have three interface buttons, which are touch-sensitive but can be located without activating the button. The functionality controlled by these buttons is also available via the OSX operating system and/or the CPU enclosure.
(2) Controls and keys shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate controls and keys shall be	Supported	

5 lbs. (22.2 N) maximum.		
(3) If key repeat is supported, the delay before repeat shall be adjustable to at least 2 seconds. Key repeat rate shall be adjustable to 2 seconds per character.	Not Applicable	Interface buttons are not designed to accept multiple sequential presses.
(4) The status of all locking or toggle controls or keys shall be visually discernible, and discernible either through touch or sound.	Not Applicable	

#### § 1194.26 Desktop and portable computers.

Criteria	Supporting Features	Remarks and explanations
(a) All mechanically operated controls and keys shall comply with §1194.23 (k) (1) through (4).	Supported	See 1194.23 above
(b) If a product utilizes touchscreens or touch-operated controls, an input method shall be provided that complies with §1194.23 (k) (1) through (4).	Supported	See 1194.23 above
(c) When biometric forms of user identification or control are used, an alternative form of identification or activation, which does not require the user to possess particular biological characteristics, shall also be provided.	Not Applicable	
(d) Where provided, at least one of each type of expansion slots, ports and connectors shall comply with publicly available industry standards.	Supported	The Apple Cinema displays utilize ADC connectors to connect with the CPU enclosure. In addition, 2 USB ports are provided on these displays.

## **Subpart C -- Functional Performance Criteria**

§ 1194.31 Functional performance criteria.

Criteria	Supporting Features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for assistive technology used by people who are blind or visually impaired shall be provided.	Not Applicable	Support is provided via the attached device.
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for assistive technology used by people who are visually impaired shall be provided.	Not Applicable	Support is provided via the attached device.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for assistive technology used by people who are deaf or hard of hearing shall be provided.	Supported	Hearing is not required for operation of the Apple Cinema displays.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not Applicable	Hearing is not required for operation of the Apple Cinema displays.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for assistive technology used by people with disabilities shall be provided.	Supported	Speech is not required for operation of the Apple Cinema displays.
(f) At least one mode of operation and information	Supported	The Apple Cinema displays do not require fine motor

retrieval that does not	control or simultaneous
require fine motor control	actions. Features are
or simultaneous actions	operable either on the
and that is operable with	display surface or via the
limited reach and strength	OSX operating system.
shall be provided.	

#### **Subpart D -- Information, Documentation, and Support**

### § 1194.41 Information, documentation, and support.

Criteria	Supporting Features	Remarks and explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.	Supported	Support documentation is available on the Web in HTML at http://www.apple.com/support/. Some documents are available only in PDF on the Web site, but will be made available upon request.
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supported	Information about Apple product access features is available at http://www.apple.com/accessibility.
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Supported	Email support is available.
